PAPIER MACHE AND CARTON PIERRE ENRICHMENTS MANUFACTORY
49 & 50, RATHBONE-PLACE.

GEORGE JACKSON and SONS beg the attention of Architects, Builders, Decorators, and others to their large assortment of ENRICHMENTS in every style, executed in the highest class of art.—Enrichments for ceilings of every period, elaborate or simple, Gothic, Elizabethan, pendentive or flat, Louis XIV in much variety, and to any decree of cost; Italian and Greek, Renaissance, and many modified characters executed for the first houses, and from designs of architects of the highest eminence; wall dressings, rich panels of every period, rich Elizabethan and Gothic Dados in many designs. Dour-cups, mouldings, and dressings.

A large assortment of Gothic Bosses to many varied intersections of all sizes, tracery and panel headings for church works, organ dressings, of most periods, and faithfully executed to the traits of each.

The general decorations of Drawing and Dining Rooms, Libraries, &c., of very considerable extent, as furniture, glass frames, tables, window cornices, screens, candelabras, and the whole range of accompaniments to Reception Rooms of the first class, as well as more subdued.

The facilities and repeated enlargement of means enable GEORGE JACKSON and SONS to announce the execution of works of the above descriptions in these advantageous materials at a cost considerably below any known method, while for quality, relief, and finish, they flatter themselves they stand unrivalled.

E. WOLFF & SONS' newly-invented CRETA LEVIS, or PERMANENT DRAWING CHALKS, in cedar, in every variety of colour.—E. WOLFF and SONS beg to state that they have, by the introduction of great improvements in their CRETA LEVIS, enabled it to be used the same as the ordinary pencils; and effects can now be produced equal to water-colour drawings, without the use of water or any other fluid; the various colours blending together with perfect harmony, beauty, and richness. It can be cut to a fine point, and is thus capable of giving a very delicate outline. For sketching from Nature, the great advantages resulting from the adoption of the CRETA LEVIS must be obvious, as, without the use of water, palette, brushes, &c., all the various tints can be obtained with a truthfulness that cannot be surpassed, and by their compact form may be carried at any instance without the slightest inconvenience; thus superseding every other method in general use. The drawings may be carried in a portfolio with safety, as, unlike other crayons, they will neither rub off nor suffer injury by coming in contact with the usual contents of a portfolio. The CRETA LEVIS, unlike the indelible or wax crayons, WILL NOT BE AFFECTED BY HEAT OR CHANGE OF CLIMATE.

E. WOLFF and SONS' IMPROVED CRAYON PAPER is the best for the CRETA LEVIS. To be had of all Artists' Colourmen and respectable Stationers, in leather boxes, containing sets of 12, 18, 24, 36, 48.—A Pattern Card, containing the whole of the shades and colours of the CRETA LEVIS, with their names and numbers attached to each shade, price 1s. each. CAUTION.—As there are several spurious imitations, it is necessary to observe that every Pencil is stamped "CRETA LEVIS, E. WOLFF and SONS," London, with name of the colour.—Creta Levis Drawings sent to copy at C. E. CLIFFORDS, 20, Piccadilly.

Manufactory, 12, Church-street, Spitalfields, London.

TO GAS COMPANIES.

BOGHEAD CANNEL COAL.—This Coal is the most highly bituminous coal known, and therefore peculiarly adapted for mixing with inferior coals in the manufacture of gas, for which purpose it is exclusively used. It yields 12,500 cubic feet of gas, of the specific gravity of 775, per ton of coal; and a burner consuming at the rate of 1 cubic foot per hour, gives a light equal to 81 spermaceti candles, each consuming 120 grains of sperm per hour. The light yielded by 1 ton of this coal is equal to that from 1200 lbs. of sperm candles; whereas that from the same quantity of Newcastle Caking Coal is only equal to 480 lbs., and that from the best Wigan Cannel Coal to only 780 lbs. of sperm candles. It can be shipped at any of the ports in the Firth of Forth or the Clyde.—For terms and other particulars apply to R. W. KENNARD and CO., Sole Agents, 67, Upper Thames-street, London.

VARNISH.—PAUL ADDINGTON, Phipp's-bridge, Mitcham, Manufacturer, takes this opportunity of returning to his friends his sincere thanks for the liberal support they have hitherto afforded him, and assures them that the articles supplied by him shall always be such as to merit their patronage. He begs now to state that he manufactures the best Varnishes of all descriptions, and can serve the same in Town or Country on the shortest notice, in any quantity, at the lowest possible price.—Please address P. ADDINGTON, Varnish Manufacturer, Phipp's-bridge, Mitcham, Surrey.

TO BUILDERS, PAINTERS, AND OTHERS.

W. COCKMAN and SONS, 122, Tottenham-court-road, and 23, Aldersgate-street fine Colour and Varnish makers, beg to call the attention of the above Trades to their superior CARRIAGE VARNISH, at 12s. per gall. combining great body with paleness and brilliancy of colour. Also

DAMP WALLS.—New PATENT PAINT: a guaranteed remedy, will dry in a few hours, and may be immediately papered over.—O. BELL and CO., steam mills, 2, Wellington-street, Goswell-street.

THE METALLIC PAINT, produced by the PATENT ALKALI COMPANY, has been extensively used for several years on farm buildings, iron bridges, roofs, and railings, shipping, &c., and it is universally admitted that it covers a greater surface than any other pigment, and stands far better on wood, iron, Abathaw lime, and Roman cement, than the ordinary paints. Fine black, 25l. per ton; rich purple brown, 20l. per ton.

Company's Offices, 1, New Broad-street, London.

JOHN A. WEST, Secretary.

PATENT WHITE ZINC PAINT.—JOHN WARNER and SONS are prepared to supply this paint to builders, painters, and plumbers, on wholesale terms. It is free from all poisonous qualities; it is unaffected by sea-water, sulphuretted hydrogen, or any of the gases; and preserves its original colour where white lead paint will not.—Prospectuses to be had at J. Warner and Sons', 8, Crescent, Jewin-st., London.

PATENT WHITE ZINC, ANTIMONIAL, and other metallic PAINTS, greatly improved in the manufacture, may now be had in any quantity; also whitelead and painters' materials of every description.

Wholesale buyers and the trade supplied on liberal terms.

VAUGHAN and SYMONDS, Southwark Steam Colour Works, Stones-end, Borough, London.

HUBBUCK'S PATENT WHITE ZINC PAINT.—ANNOUNCEMENT.

For MARINE USES, it possesses the following advantages:—It is whiter than any other Paint, and retains this whiteness for years, unaffected by bilge-water, or noxious vapours from cargo. The White Paint in the hold of a ship, after discharging a sugar cargo, is found to be as white as the year before, when newly painted. Under these and other circumstances, when every other paint hitherto known and tried has failed, the "White Zinc Paint" has preserved the freshness of its colour. Moreover, by virtue of its undeniable affinity on iron, it enters the pores, and forms an amalgam of the two metals, which protects the iron from rust, decay, or incrustation.

For the GENERAL PURPOSES of the decorative painter, the "White Zinc Paint" has been found unparalleled in whiteness, clearness of colour, durability, and beauty of texture. It becomes so hard as to admit of polishing equal to the finest enamel panelling.

For SANITARY PURPOSES the "White Zinc Paint" is valuable, not only from its being totally free from every ingredient injurious to health, but from its combining chemical qualities which render it a powerful corrective where contagious diseases have prevailed; furniture or buildings painted with it are at once disinfected. Paralysis and Painters' Colic are avoided by its use, as well as similar maladies to the occupants of newly painted rooms. Apartments may be immediately occupied, without injury to the health of children or the most delicate constitution. It becomes cheaper than common paint, from its spreading over a much larger surface. 1 cwt. of this paint covers as much as is usually covered by 1 cwt. of white lead. Each cask is stamped with the name "Hubbuck—London.—Patent," as the style of the Manufacturers. A circular with full particulars may be had of the manufacturers, THOMAS HUBBUCK and SON, Colour Works, opposite the London Dock.

PURE PATENT WHITE ZINC PAINT of the VIEILLE MONTAGNE ZINC MINING COMPANY.—This Company having become Proprietors of all rights and patents of the late Patent White Zinc Company in France and Belgium, is prepared to FURNISH, on a large scale, the WHITE OXIDE of ZINC in a PURE STATE, and of a quality which can only be manufactured from the Zinc from their Mines in Belgium. The Patent White Zinc Paint is superior in every respect to white lead paint. It is entirely free from all poisonous influences, and is unaffected by sea-water, sulphuretted hydrogen, or any gases; besides, it preserves its original colour, which white lead paint does not. White zinc paint causes none of those ravages to be invariably engendered by white lead upon the human frame; neither Painters' Colic, nor Paralysis, &c. &c., to which dangerous complaints the workmen who manufacture and use it are subject, and to which persons who inhabit newly painted apartments are also liable. A spurious article having been introduced in the market under the name of White Zinc Paint, the Public is cautioned against it, because, when adulterated, it becomes a very inferior paint, instead of a first-rate one.—For further particulars and Prospectuses, apply to Mr. H. F. SCHMOLL, general agent for England and Scotland, at the Company's Offices, 19, Manchester-buildings, Westminster-bridge, London.

EXHIBITION, 1851.—HOME EVERYWHERE.—TENTS FOR THE MILLION.—At BENJAMIN EDDINGTON'S Marquee, Tent, Flag, and Rick Cloth Manufactory, 24, Duke-street, North-street, Aldermanbury, City. The following Second-hand Marquees to be sold remarkably cheap: 200 feet by 25, 120 feet by 40, 120 feet by 25, and 100 feet by 15. Emigrant Tents fitted up complete. A number of Second-hand Rick Cloths in good condition, with poles, &c. complete.

WORKSHOPS.—The LEASE to be SOLD of a BUILDING of WORKSHOPS, three stories high, large, light, and lofty; suitable for a cabinet-maker or builder, in the vicinity of Baker-street, Portman-square, at a moderate ground-rent.—For particulars apply to Mr. BATCHELOR, 121, Crawford-street.

BUILDING LAND, laid out for Gentlemen's Residences, and not to be equalled for splendour of locality and facility to the City. The spot commands first-rate residences, and to an extensive builder will be found to be a first-rate taking. The plans may be inspected, and prices ascertained, on application to Mr. W. J. HOLT, Solicitor, 13, Chatham-place, Blackfriars.

BUILDING LAND of a very excellent and superior character.—Mr. WOOD is instructed to LET a very choice PIECE of GROUND, delightfully situated close to a first-class station on the Croydon Railway, having a frontage of 120 feet and 220 feet deep, for erecting Villas of not less value than 50l. Lease, eighty years, with a peppercorn till the 25th of September. Price 4s. a-foot. Gentlemen desirous of building themselves a residence in the country, with facilities of easy access by railway, would do well to inspect this.—Apply for cards to view, at his Office, 24, Acton-place, Kingsland-road.

WESTMINSTER IMPROVEMENTS.—The Commissioners will shortly be prepared to OPEN the NEW STREET to WESTMINSTER, to be called VICTORIA STREET, leading from the Abbey to the neighbourhood of Bessborough-square, and of a width of 80 feet throughout. Several PLOTS of GROUND, suitable for extensive private and public buildings, and of such dimensions as it is impossible to obtain in any more central part of the metropolis, are still unlet. The Commissioners will be ready to receive tenders from trustees or other persons interested on behalf of public institutions or establishments, for erecting or purchasing sites, before the final arrangements are decided on for appropriating the whole of the street to builders. Plans and particulars may be obtained of HENRY ASHTON, Esq., Surveyor to the Commissioners, at their Offices, 24, Great George-street, Westminster. THOMAS BILLINGS, Clerk.

FREEHOLD BUILDING GROUND.—TO BE SOLD, or LET on Lease, about two acres of Ground, situated in the most desirable part of TWICKENHAM, near the Railway Station, and facing Pope's Grove. It has a frontage of upwards of 700 feet, and lies on the high road from London to Hampton Court, and with the ground will be granted the privilege of a private access to and from the River Thames. To parties purchasing or leasing cash will be advanced towards building first-class villas, and the money may be, at the option of the borrower, for a period of seven years. It shall also be in the option of the lessee to redeem the ground-rent at any time during the first seven years.—For plans and further particulars apply to JAMES CLARK, 94, Billiter-street, London.

WIMBLEDON PARK.—FREEHOLD BUILDING GROUND.—A SALE of several PLOTS of BUILDING GROUND within this charming property will take place in the month of MAY, of which full particulars will shortly be announced. There is no spot within many miles of the metropolis which possesses so many attractive qualities as Wimbledon park. Its commanding elevation, the beautiful undulations of the ground, its spacious lakes, majestic oaks, and above all, the proverbial salubrity of the air, render it a most desirable spot for the residence of gentlemen engaged in business. The estate is within twenty minutes' ride from London by the South-Western and Richmond Railways, several portions of the park being within the limits of the Wimbledon, Putney, and Wandsworth omnibuses. It is supplied with the purest water by an artesian well, which has been sunk to a depth of 600 feet.—Further particulars may be obtained upon application at Tibbet's-lodge, Putney heath; and of Mr. WOOD, at the County Fire Office, 30, Regent-street.

MESSRS. BROWNE and CO., Proprietors of the MARBLE and SCAGLIOLA WORKS, UNIVERSITY-STREET, LONDON, have the honour to announce to the Nobility, Gentry, Architects, Builders, and the community generally, that they have resolved on submitting their extensive and valuable STOCK for PRIVATE SALE, at greatly reduced prices. An eligible opportunity is thus presented for selecting sculptured productions of the highest order, whether in Marble, Scagliola, or Scagliola. An extensive variety of CHIMNEY-PIECES of the most classic designs and elaborate workmanship, executed in various marbles, are among the specimens, specially inviting the attention of parties whose houses are undergoing embellishment; whilst a large collection of statues, busts, vases, and other appropriate decorations for the library, the saloon, and the cabinet, are no less worthy the notice of the connoisseur and the man of taste. To those who may be desirous of adding to the picturesque attractions of the park or the pleasure-ground, are offered a variety of carved relics of remote antiquity, in statues, columns, obelisks, pretended sarcophagi, &c. The Stock is NOW ON VIEW DAILY, from 9 in the morning till 8 in the evening, the proprietors having adopted this mode of effecting its speedy reduction, previous to Mr. Browne's intended retirement from the concern as early as practicable. In the meantime, it is respectfully intimated that all orders will be received by the firm as usual, and executed with the same regard to perfect workmanship, strict economy, and punctuality, which has hitherto secured them so many distinguished patrons. After the ultimate sale of the stock, the business will be continued by a new proprietary, whose names will, in due time, be announced to the public.
